Re: Koppers Inc.'s Response to Section 104(e) Information Request for the Portland Harbor Superfund Site

Dear Ms. Koch:

Enclosed is the Response of Koppers Inc. to the Section 104(e) Information Request for the Portland Harbor Superfund Site. This Response includes production of electronic documents on behalf of Koppers, Bates labeled Koppers00001 through Koppers023641, as well as electronic documents that predate Koppers' acquisition, Bates labeled Beazer000001 through Beazer002167, which are included on the enclosed CD. The response also includes production of hard copy "oversized" documents Bates labeled Koppers023642 through Koppers023734 that have been sent under separate cover.

We appreciate your consideration in having given us an extension of time to review the documents and prepare the enclosed Responses. We have reviewed tens of thousands of documents to provide as accurate of information as possible. If there are any responses which US EPA believes are incomplete or which do not appear to be clear on their face, please contact me so that we can make a supplemental response. We have used our best efforts on behalf of Koppers Inc. to provide a complete, accurate and

detailed response. However, some requests sought information that simply is not within the control or knowledge of Koppers Inc.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jacqueline A. Simmons".
